Health Mentors Needed Check. Change. Control.® is a four month program that utilizes a FREE web-based health management tool. This tool allows an individual to track and chart their blood pressure numbers. Offline, Check. Change. Control.® offers participants education about hypertension, stroke, blood pressure management, nutrition and physical activity. This program is an opportunity for faith-based

groups to partner with the American Heart Association to provide FREE resources and education to the congregation and communities that they serve. Churches must identify a minimum of two health mentors (health mentors do not have to be from the medical field) who will attend one health mentor training, agree to enroll participants only during the open enrollment period and have a blood pressure station located within the church. Our parish nurse, Connie Hestily, is working on setting up this program. If you would like to help as a health mentor, contact her at 580-380-9882 as soon as possible.
